Sir:

This statement is in response to the Interview Summary from Examiner Jeffrey Piziali dated September 28, 2006.

A telephonic interview for the above-referenced patent application was conducted on September 21, 2006, with Examiner Piziali, Bernard Kleinke, and Scott Lohnes participating.

The pending claims 4-40 for this application were discussed during the interview in view of Chuang (United States Patent No. 5,987,421), Lepkofker (United States Patent No. 5,652,570), and Tuttle (United States Patent No. 5,914,671).

A general review of the pending patent application and the above listed prior art was presented. This was followed by arguments regarding the distinguishing features of the pending application, such as the identification stations and maps showing the locations of members of the group. A proposed amendment was provided to the Examiner and briefly discussed, but is not to be included into the current examination. No agreement was reached as to the patentability of the pending application.
